EXPERIENCE

Walking Tour Guide	2016
Architectural Institute of British Columbia, Victoria BC	

I lead two-hour architectural walking tours of up to thirty people through downtown Victoria, Chinatown, and James Bay, which gave me excellent public speaking skills, administrative skills, and independent work ethic. I was required to manage all tours run out of Victoria by the AIBC and manage the marketing of the tours through online media and posters. I also conducted independent research of architectural and social historical moments in Victoria's history.

Costumed Historical Interpreter	2014–2015
Fort Edmonton Park, Edmonton AB	

During two summer seasons employed at Fort Edmonton Park, my job was to deliver quality programs to the general public, offering both tours and drop-in programs. I performed historical vignettes for visitors and gained a mastery of educational and interpretive theory when engaging the public. I also gained independent research skills and the ability to access and navigate municipal and provincial archives in order to gather information on Edmonton's settlement narrative and write programs for the public. I have a strong command of Western Canadian history.

Natural and Human History Interpreter

2013

John Walter Museum and Muttart Conservatory, Edmonton AB

I organized and lead day-camps, planned educational drop-ins, and scheduled programs on human and natural history. I also conducted independent research on both Edmonton's settlement narrative (John Walter Museum) and botany and biology (Muttart Conservatory).
